WORK EXPERIENCE

Senior DevOps Engineer

Remote / International Projects

June 2022 – Present

- Designed and maintained fully automated CI/CD pipelines, reducing deployment time by 70% and minimizing production errors.
- Built and managed cloud infrastructure using Terraform, ensuring reproducible, scalable, and fault-tolerant environments.
- Deployed and managed containerized applications using Docker and Kubernetes, supporting high-traffic production workloads.
- Implemented monitoring, logging, and alerting systems (Prometheus, Grafana, ELK), improving system uptime to 99.9%.
- Led incident response and root cause analysis, implementing long-term fixes to prevent recurrence.
- Enforced security best practices including IAM policies, secrets management, network isolation, and CI/CD security scanning.
- Collaborated with development teams to optimize application performance and reliability.
- Documented infrastructure, workflows, and operational procedures for team knowledge sharing.

DevOps / Infrastructure Engineer

Gilah Global Limited // Lagos, Nigeria

May 2019 – Dec. 2022

- Automated server provisioning and configuration using Ansible and Bash scripts.
- Migrated legacy applications to cloud-native architectures, improving scalability and cost efficiency.
- Managed production and staging environments, ensuring high availability and disaster recovery readiness.
- Implemented backup strategies, load balancing, and auto-scaling for mission-critical systems.
- Supported development teams with build pipelines, testing automation, and release management.

EDUCATION

Lagos State University

Bachelor of Engineering (B.Eng.) Electronic and Computer Engineering

ACHIEVEMENTS

SUMMARY / OBJECTIVE

Highly motivated and experienced DevOps Engineer with 7+ years of hands-on experience designing, automating, and operating secure, scalable, and highly available cloud infrastructure. Proven expertise in CI/CD pipelines, Infrastructure as Code, Kubernetes orchestration, cloud platforms (AWS/Azure/GCP), and production reliability. Strong background in monitoring, incident response, automation, and security best practices. Adept at supporting remote teams and driving operational excellence in fast-paced environments.

SKILLS

Languages & Frameworks

- Python (FastApi), Java, JavaScript / React

Cloud Platforms

- AWS, Azure, Google Cloud Platform (GCP)

CI/CD

- GitHub Actions, GitLab CI, Jenkins, Bitbucket Pipelines

Containers & Orchestration

- Docker, Kubernetes, Helm

Infrastructure as Code

- Terraform, AWS CloudFormation, Ansible

Monitoring & Logging

- Prometheus, Grafana, ELK Stack, CloudWatch

Scripting & Automation

- Python, Bash, PowerShell

Security & Compliance

- IAM, Secrets Management, SSL/TLS, DevSecOps

Version Control

- Git (GitHub, GitLab, Bitbucket)

Operating Systems

- Linux (Ubuntu, CentOS, Amazon Linux)

Methodologies

- Agile, SRE, DevOps Best Practices
