WORK EXPERIENCE

Senior React & Java Developer

Remote / International Projects
June 2022 – Present

- Designed and developed full-stack web applications using React, TypeScript, and Spring Boot, serving high-traffic production environments.
- Built secure, scalable RESTful APIs with Spring Boot and Spring Security using JWT and OAuth2.
- Developed reusable, high-performance React components following modern hooks-based patterns.
- Implemented microservices architectures with service-to-service communication and centralized configuration.
- Optimized database access using JPA/Hibernate, improving query performance by 40%+.
- Integrated asynchronous messaging using Kafka/RabbitMQ for event-driven workflows.
- Collaborated with DevOps teams to containerize applications using Docker and deploy via CI/CD pipelines.
- Led code reviews, enforced best practices, and mentored junior developers.
- Authored technical documentation, API specifications, and architecture decision records.

Frontend / Backend Developer (React & Java)

Gilah Global Limited // Lagos, Nigeria
May 2019 – Dec. 2022

- Built responsive, user-friendly interfaces using React and modern CSS frameworks.
- Developed backend services with Java, Spring MVC, and Hibernate.
- Designed relational database schemas and optimized SQL queries.
- Integrated third-party APIs and internal enterprise systems.
- Supported production systems, resolved incidents, and implemented long-term fixes.
- Collaborated closely with product, design, and QA teams to deliver features end-to-end.

EDUCATION

Lagos State University

Bachelor of Engineering (B.Eng.) Electronic and Computer Engineering

ACHIEVEMENTS

- Delivered enterprise-grade full-stack applications with high availability.
- Reduced API response times by 30–50% through backend optimization.
- Led successful migration from legacy UIs to modern React architectures.
- Supported distributed teams and remote deployments across multiple environments.

SUMMARY / OBJECTIVE

Senior React & Java Developer with 7+ years of experience delivering enterprise-grade, scalable, and secure web applications. Deep expertise in React, TypeScript, Java (Spring Boot), RESTful APIs, and microservices architectures. Proven leader in full-stack development, driving solutions from system design through production deployment, while collaborating effectively with distributed teams to deliver high-impact business outcomes.

SKILLS

Frontend
- React, React Hooks, Redux, Zustand, Next.js, Tailwind CSS

Backend
- Java (8–21), Spring Boot, Spring MVC, Spring Security, Spring Data JPA

Languages
- JavaScript (ES6+), TypeScript, Java

APIs
- RESTful APIs, OpenAPI (Swagger), JSON, OAuth2, JWT

Databases
- PostgreSQL, MySQL, MongoDB, Redis, Oracle

Architecture
- Microservices, Clean Architecture, Event-Driven Systems

Cloud & DevOps
- AWS, Docker, Kubernetes (working knowledge), CI/CD

Testing
- JUnit 5, Mockito, Jest, React Testing Library

Messaging & Streaming
- Kafka, RabbitMQ

Version Control
- Git (GitHub, GitLab, Bitbucket)

Methodologies
- Agile / Scrum, Domain-Driven Design (DDD)
